

7.Integrating Zoho Creator with Zoho CRM via Connections and APIs

Aim

To design, develop, and integrate a custom **Bank Loan Application** form in Zoho Creator with Zoho CRM using authenticated connections and automated workflow actions, enabling seamless lead generation and data synchronization upon successful form submission.

Procedure

1. **Application Setup:** Log into the Zoho Creator platform and create a new application titled Bank Loan Application.
2. **Form Design:** Construct the Loan_Application_Form incorporating Section-A (Personal details: Applicant Name, Date of Birth, PAN Number), Section-B (Contact details: Email, Phone, Address), and Section-C (Income and employment details).
3. **Integration & Authentication:** Navigate to *App Preferences > Manage Integrations*. Select Zoho CRM and establish a secure OAuth connection. Verify that the connection badge displays **Connected**.
4. **Workflow Configuration:** Go to the **Workflow** tab, select the Loan Application Form, and create a new workflow under the trigger event Created > Successful form submission.
5. **Action Mapping:** Add an integration action inside the execution block to push applicant data directly to Zoho CRM modules, then toggle the workflow status to **Enabled**.

The screenshot displays a web browser window with the URL `creatorapp.zoho.in/kamleshwaran.k.2024.aiml519/bank-loan-application#Form:Loan_Application_Form`. The application interface is titled "Bank Loan Application" and features a sidebar with navigation options: "Loan Applications", "App Preferences", "Approvals", "Branches", and "Bank Loan Application Command Center". The main content area is titled "Loan Application Form" and is divided into three sections:

- Section-A personal details**
 - Applicant_Name: Two input fields for First Name and Last Name.
 - Date of Birth: A date picker showing "dd-MMM-yyyy".
 - PAN Number: A single input field.
- Section-B Contact details**
 - Email address: A single input field.
 - Contact number: A field with a country code dropdown (set to +91) and a number input (81234 56789).
 - residential address: Two input fields for Address Line 1 and Address Line 2.
 - City / District: A single input field.
 - State / Province: A dropdown menu.
 - Postal Code: A single input field.
 - Country: A dropdown menu.
- Section-C Income and employment details**

On the right side, a "Manage Integrations" sidebar is open, showing a "Connections" section with a "Zoho CRM" account listed as "Zoho CRM Account" and a "Connected" status.

Result

The Bank Loan Application was successfully created and integrated with Zoho CRM. Whenever an applicant fills out and submits the loan form in Zoho Creator, the workflow triggers automatically, successfully executing the API push action to synchronize applicant details into Zoho CRM in real time.
